

## CHLORINE / BROMINE FILTERS

Our tain one of the largest selections of **Automatic Chlorine/Bromine Feeders** are the most efficient and cost effective units in the industry. Each unit is NSF approved and ofer significant beenefits that include:

- **Completely Enclosed System**
- **No Special Venting Required**
- **No Escaping Gasses**

There are several different models available that include our *In-Line Feeders* and *Off-Line Feeders* our *Commercial/High Capacity Feeders*. Our **In-Line Feeders** are for permanent installation in return lines of new or existing systems. The unit(s) are to be installed in the return line on the pressure side of the pump downstream of all equipment. Our standard unit is 2" slip and also includes adapters for 1-1/2". Our **Commercial/High Capacity Feeders** are for large capacity requirements (Up to 61,000 Gallons with Bromide and 332,000 Gallons with Trichlor).

We also offer a complete line of accessories for each of our feeders that include *Extensions*, *Flow Indicating Devices*, *In-Line Check Valves*, *By-Pass Valves*, *Silicon Lubricant* and *Tubing*.

As with all of our products, we offer **FREE** systems design. Please consult with an *AREA Technical Representative* for sizing assistance, integration with a current system or a new system.

## TANK MOUNT UV STERILIZERS

Our **Tank UV Sterilizers** are the next generation of technology as they provide tremendous benefits for small systems or systems that need to be independent of a main system. Our new sterilizers allow clients to have a UV Sterilizer mounted on individual tanks for quarantine systems, laboratory systems or any other application that need to be independent. Our **Tank UV Sterilizers** are manufactured to be installed in a hanging position or underneath a tank. Each sterilizer can also be isntalled inside a pond filter or skimmers. Some of the amazing features of our Tank UV Sterilizers include:

- **Internal Step Design** (Directs Water Back and Forth Across UV Light)
- **Ease Of Replacement** (Unique 4 Pin Connector For Easy Bulb Replacement)
- **Adjustable Clamp** (Spring Loaded Clamp Creates Snug Fit To Any Tank)
- **Distribution Plate** (Evenly Distributes Water Into Chamber)
- **Plugs / Drains** (Plug Off Inlet Ports Not In use - Can Be Removed To Drain/Clean Unit)
- **Ballast** (10 Watt, 15 Watt, and 25 Watt High Output UL Listed Ballast)
- **Non Corrosive** (Heavy Duty, Thick Wall ABS Injection Molded Parts)

We also offer a complete line of *Replacement Bulbs*, *Ballasts* and other items. Please consult with an *AREA Technical Representative* for sizing assistance, integration with a current system or a design of new system.
